FROM THE PRESIDENT

It is 47 degrees out with a 25 MPH wind, I think the outdoor season is winding down!!

Might be time to get your indoor stuff ready. This was a really good outdoor season with three very successful fun flys and a number of firsts. Many of us seem to have drifted to the small Radian glider and have really had some fun with them (including a mass launch of 8 from the sitting position!) Can't wait for the next glider fun fly to see how many we can get up.

It is going to be interesting to see who is the first to fly one in the Hershey Arena.

Next meeting is at the hangar and we are going to try something new. If you are like me, you have difficulty soldering. Walt, Henry and several others are going to hold class with a number of stations set up. Bring anything you want to solder or just something to practice on. We might expand this concept, if it is successful, as there are any number of "tricks of the trade" we can use help with.

Many thanks to Don and all those who helped keep the field in great shape all season long. We clearly have one of the nicest fields in the area.

See you on the 3rd at the hangar.

Jim Geiger
 President
