## From the President

### Presidents Message March 2018

Man if you didn't get out to the field earlier in the week you missed some May flying weather. I didn't make it but I understand there was quite a crowd there Sunday. Don't worry, the season will get here soon.

A reminder that the March meeting is at Bob Krehlings lunch room at 7:00 PM on Monday the 5<sup>th</sup>. This is an extremely important meeting as we need to elect new officers, As I indicated earlier, we have one nomination for president (Brian Krehling). We've added a number of new members lately so it looks like things are rolling for 2018.

Please be sure you have paid both your AMA and KRCS dues.

In reading a number of aviation mags (Aviation week and space technology in particular) you will note that the drone world is in full swing. All the way from Uber style inter city transportation to drone swarms of UAV's the size of your hand released 100's at a time. China is actively testing 4 person commuter drones and expects them to be in passenger service in the next year. Companies like Boeing and Airbus are into passenger and freight drones with both feet. Several countries have fully functioning package delivery systems in service. UPS, Amazon, Pizza Hut, to name a few, will begin package delivery in the very near future.

Sorry Walt but I told you it was coming.

Remember the March meeting is critical so please try to be there.

Jim Geiger  
President  
KRCS
