WAYNE LAUGHNER	(717) 774-2918

Web-site is under construction, check it out at <http://www.krsc-rc.org/>

# **FROM THE PRESIDENT**

**August 2009**

## **Electric Fun Fly**

An excellent event!!!! If you missed it you really missed a nice Electric Fun Fly! The weather held and the member participation was great. If we keep up this effort we have the ability to grow our fun fly's into some really fun annual events.

Don't have the numbers yet but we made some money (at least \$200 from shirts and stuff). I saw a lot of food being consumed!

Roy Stone, Phil Cartier, "Luke" from Hidden Hangar all put on various demonstrations that were excellent. Phil and his "Ukie" combat flying brought back a lot of memories to us "Geesers".

Thanks in particular to Bob (The counter man) and JR / Verna for their efforts. Be there for the August "Open" fun fly and you will have a blast!!!!

Again, thanks to all members who helped out in any number of ways. Thanks to Terry Phillips for "load testing" the observation platform and doing an excellent job of announcing the event.

See you in August. Also don't forget the event on July the 18<sup>th</sup> at the Mount Joy library.

Jim Geiger

## **KRCS Minutes July 5, 2009**

The meeting was called to order by President Jim Geiger at 7:00 pm at the Creamery field.

We had the pledge of allegiance to the flag.

The minutes were approved upon motion by Dan and seconded by Linda

The Treasurer's report was given by Don Epler and approved upon motion by Dan II and seconded by Dan Bishop.

Bob K. announced that a new observation deck has been added to the transmitter compound. Gregg was praised for his long and hard work on the building detail.

It was pointed out that the deck is to be used for official functions only and that the deck is especially off limits to children. It was decided to post safety guidelines for the use of the deck.

Our Fun Fly is coming up on July 11<sup>th</sup> and Bob K. requested all members to come and help make this a successful event.

There will be a Fun Fly on August 15<sup>th</sup> open to all classes of aircraft.

Ron C. reminded members of the upcoming Static Show at the Mount Joy Library on July 18<sup>th</sup>. Hours of the show are 10 to noon and members are asked to be there at 8 to help set up.

Terry Phillips (full scale flight instructor) announced that he is offering lessons at \$100.00 per hour and will donate \$25.00 to the club for each hour he trains. This is a great opportunity for students and a wonderful offer for the club.

Ron DeAngelis and Curt Dubinsky were awarded Flight Certificates.

Linda C. offered the suggestion of purchasing a Bosun's chair for use in retrieving planes stuck in trees. The plan will be brought before the Board for discussion.

Charlie won the 50/50 raffle and Rick won the raffle for the Biplane donated by Bill Moore.

The meeting was adjourned at 7:30 pm upon motion by Dan II and seconded by Bill M

.Respectfully Submitted

Walt Hiester

## August Babies

1<sup>st</sup> - Bill Hallman    4<sup>th</sup> - Dan McNeil    5<sup>th</sup> - Walt Hiester

22<sup>nd</sup> - Charles Evans    27<sup>th</sup> - Nicolas Graf

28<sup>th</sup> - Wayne Laughner

*It is incumbent on every generation to pay its own debts as it goes. A principle which if acted on would save one-half the wars of the world. - Thomas Jefferson*

### **Please allow me to introduce myself.**

Since I've been working with Bob Krehling as assistant editor of this newsletter for quite some time now, he's insisted that I introduce myself to the membership. That's me to the left, I'm the I.T. Manager at Krehling Industries, so that's how I got privilege to become Assistant editor. I'm not a member of the club, the closest I've ever got to what you guys do is in the 70's I had a Cox gas powered plane that had strings that came out of the wing and went to a handle, I would hold the handle and spin around in a circle till I got too dizzy and crashed, I think I only had it about a week till I couldn't fix it good enough to fly any more. I find your hobby

very interesting. I've been helping Bob with his latest project, a Fiat RS-14 by doing most of the CAD work needed to cut the parts on our CNC router. It's amazing how much detail must be considered to build such a thing. Well. I don't know what more you would like to know so I'll wrap this up. If there is anything else, feel free to contact me. My email address is on the cover page.
